1899

Note

Refce "S" Letter No 347 dated the 24th August 1899 from the Senior Surgeon

Subject Establishment of a Dispensary at the Malleswaram Extension

Mdl. 2-99

With the above letter the Senior Surgeon forwards Copies of two letters addressed to him by the Supg Sanitary Engr ~~to the~~ urging the necessity for opening a dispensary at the Malleswaram Extension and states that in anticipation of Govt sanction he has ordered Senior Hospital Asst C David Pillay to report himself to the Supg Engr for opening a dispensary in that Extension.

The point on which the Senior Surgeon solicits orders of Govt is as to the source from which the pay

monthly expenditures.
Other than that the rest
from the month's Budget
amounts to £2/

This is an Unusual case
does not come under
the ordinary rule. The
charge may therefore be
debited to the Medical
Budget

GOVERNMENT OF MYSORE

Office Note.

Letter No. 589/ dated June 1901, from the Senior Surgeon & Sanitary Commissioner with the Govt of Mysore.

The Dispensary recently opened at the Malleswaram Exten--sion of the Bangalore City is located in a private house belong--ing to B.V.Lakshmana Rao of the Dewan's Office, on a monthly rent of Rs. 10. The house was taken up by the Medical Department on the 21st August 1900, and up to date no rent has been paid to the land-lord. Bills were sent to the Medical Department, which has been in correspondence with the City Municipality for the payment of the amount. The Municipal Authorities however have returned the bills stating that as the Malleswaram Extension has not been included within Municipal limits, they are not liable to pay the charge.

The opening of the Dispensary in question was sanc--tioned by Govt Pro.No. 3810-13 Mis.1004 dated 20th Septr. 1899, and the

entire cost thereof was, as a special case, directed to be debited to the Medical Budget.

Under these circumstances, it is submitted that the house rent also may be debited to the Medical Budget until further orders.

The Senior Surgeon says that "it seems clear from recent Govt Proceedings "that Malleswaram comes under Division "No. I of the Municipality." He may be asked to explain this statement as this Office has no information on the subject.

+ Please see clause 3 of para 7-(para 2) of G.O. No Pg. 1291-93 dy 19-4-08

Subd to the Secretary

Subject Letter re G. Log dated the 7th May 03 from the Senior Surgeon & Sanitary Comr regarding the rent payable to the house at the Malleswaram Extension for in which the Dispensary is located.

Note

Flag A

In G.P. no. 392-93 / Mis 77 dated the 10th July 1901 sanction was accorded to the payment of a monthly rent of Rs 10/- to Mr Lakshman Rao for house at Malleswaram for locating the Dispensary in it

2. At the time the house had not been provided with house service connection for supply of water but Lakshman Rao is now willing to affix this additional convenience provided

he is paid a rent of Rs 12/- a month &

One form may be used for more than one letter of the same file as long as there is space. The Office Note should be in black ink. Write only on side of this form.

The Senior Surgeon recommends that the increased rent of Rs 2/- a month may be granted and solicits early orders

Draft sanctioning the increase is submitted for approval or other orders

As Mr Lakshman Rao says the house is no ~~doubt~~ doubt centrally situated and is worth the rent now demanded. especially under the altered condition of the Mathewaram Extension

ordered to be

3. As the Extensions have been brought within Municipal limits and as the question of the cost of the Dispensary from 1st July 1903 being debited to Municipal and Distt. Funds is under correspondence in this Branch the present reference has also been dealt with in this Branch

Sgd 16/6/03 As the present rent viz Rs10/- is being debited to the Medical Budget the increase viz Rs2/- may also be debited to the same Budget for the present.

Draft sub for appl orders thereon.

No. 7180-90—CIR. 164, DATED, BANGALORE, 6TH DECEMBER 1889.

ORDER THEREON.—In 1888 the Senior Surgeon recommended the grant of charge allowance to Hospital Assistants in charge of Local Fund Dispensaries and also to those attached to the Deputy Commissioners' Establishments, Asylums and Medical Stores. The Deputy Commissioners who were consulted are generally in favor of the proposal.

2. The question of granting the allowance to Hospital Assistants attached to the Deputy Commissioners' Establishments, Asylums and Medical Stores will be considered separately.

3. The rates of allowance proposed to Hospital Assistants in charge of Local Fund Dispensaries are Rs. 20, 15 and 10 per mensem. The Dispensaries falling under each of the above rates are shown below :—

No.	Local Fund Dispensaries.	District.	Rate of Allowance.
1	Kankanhalli	Bangalore	20
2	Heggaddevankote	Mysore	20
3	Saklespur	Hassan	20
4	Tirthahalli	Shimoga	20
5	Nagar	Do	20
6	Sagar	Do	20
7	Shikarpur	Do	15
8	Sorab	Do	15

12	Koppa	Do	20
13	Hariharpur	Do	20
14	Yedahalli	Do	20
	All others	Ten Rupees each per mensem.	10

4. The Government are pleased to sanction the charge allowances above proposed to the Hospital Assistants in charge of Local Fund Dispensaries, with effect from 1st April 1890. The cost should be paid from the District and Municipal Funds in the same proportions in which the cost of the menial establishments, contingencies, &c., is now met. The existing Malnad allowances will merge in the charge allowance now sanctioned. The increase now sanctioned amounts to Rs. 680 per mensem as shown in the margin.

cipation of sanction of Government I have directed Senior Hospl: Assistant C.David -- Pillay to report himself to the Superintending Engineer for opening the Dispensary at the Malleswarem Extension.

The pay of the Hospital Assistant and the cost of Europe Medicines and appliances will as usual be met from the Medical Budget , but as regards other charges, that is, the pay of servants, cost of Country Medicines &c.

(particulars as per margin) I solicit the orders of Government.

It seems to me that as both the D.P.W and the people living in the neighbourhood of the Extension will be benefited by the establishment of this Dispensary, the cost specified should be borne by the D.P.W. and the Municipal and the District Funds in equal proportion.

I have the honor to be,

Sir,

Your most obedient servant,

Lt.-Col.,I.M.S.,
Senior Surgeon & Sanitary Commissioner,
Mysore Government.

Sir

With reference to your Official Memo No. 2227/Mis 701 dated 19th Instant forwarding for opinion copy of letter No. 347 dated 4th Idem from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, together with those of the communications addressed to him by the Superintending Engineer Sanitary Works Department intimating the opening of a Dispensary at the Mallesvara extension and suggesting that the establishment charges amounting to Rs 504/- per annum should be borne by the Department Public Works the Municipal and the District Funds in equal proportion, I have the honor to state as follows:-

2 A Despensary similar to the one started at the Malleswaram extension would be required to be opened at the Basavan gudi extension also Both these extensions are outside Municipal limits and the City Municipality cannot be required to contribute towards the up-keep of Dispensaries there The District Funds are not in a condition to bear any portion of the charge.

3. Under these circumstances I beg to suggest that a small portion of the cost may be recovered from the families living in the extensions who pay no taxes at present and the balance met from the Funds of the Public works Department

I have the honor to be

RECEIPTS.

2. *I. Octroi.*—The increase under this head is expected from the marginally noted additional articles proposed to be brought under taxation in the Municipality. As the levy of duty on foreign tobacco, which is being taxed in the Civil and Military Station municipality has been sanctioned by Government in para 3 of Proceedings No. 12462—L. F. 194-94, dated 2nd May 1899, the estimate of revenue expected from this article is passed. But as the question of taxing the other articles simultaneously in the City as well as in station municipalities is an unsettled one, being still under correspondence, it is considered inadvisable

	Rs.
(1) Foreign tobacco	3,375
(2) Kerosine oil	4,734
(3) Timber	18,736

new hands and the grant of increases aggregating Rs. 7,784 for the year which are considered necessary but have not been included in the budget on the ground of the items being new. If these items are sanctioned and included in ths budget the debit balance will rise to Rs. 61,822. To enable Government to pasr final orders on the subject, the President is requested to submit his proposals foe meeting the deficit:—

Items.	Increase.	Reason for new appointment or increase.
	Rs	
IV. (a) Additional Assistant Sanitary Inspector on 50+15 per mensem.	65	As the sanitation of the City requires better supervision.
(2) Increase of allowance to the existing Assist. Sanitary Inspector from 45+10 to 45+15.	5	As it is not possible to maintain ponies in Bangalore on their present allowance of Rs. 10 and 7 respectively.
III. (b) (3) Increase of horse allowance to Octroi Deputy Inspector from Rs. 25+7 to 25+15 or Rs. 8 per mensem.	8	
(4) 40 Additional Scavengers at Rs. 6 each ...	240	As several new lanes have been opened, and the number of houses for daily conservancy have increased.
Twenty sweepers at Rs. 6	120	
Do at Rs. 5	100	
(5) VIII. Public Works (a) Increase of pay to 4 Public Works Sub-Overseers on 20+15 to 25+15.	20	As some encouragement is necessary to these hard worked and deserving officials.
(6) IX. Increase of salary by Re. 1 each to waterman and toti attached to Fort Dispensary.	2	As the Senior Surgeon recommended the increase.
(7) Increase of Rs. 47 per mensem to the chatram Hospital temporarily for one year.	47	Ditto proposed the reorganization of the establishment.
(8) X. Furniture to schools.	500	As the Municipal school requires furniture very badly.
Total per annum ...	7,784	

Pending the submission of definite proposals to meet the deficit and final orders of Government thereon, the budget estimates as modified above are provisionally passed. No original works should, however, be undertaken unless the Board raise additional funds by adopting methods similar to those already adopted in the Civil and Military Station. Government consider that it is easy to realize an increased revenue by the adoption of the suggestion made above, and that the Board should not ask for loans for ordinary administration which alone is provided for in this budget.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To The President, Bangalore City Municipality.
The Comptroller to the Government of Mysore.
The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Inspector General of Education of Mysore.
The Chief Engineer of Mysore.
The Superintending Engineer, Sanitary Works, through Chief Engineer.
The Presidents of Municipalities in other Districts.

Exd.—H.A.R.

GOVERNMENT OF MYSORE

LOCAL BOARDS BRANCH, MUNICIPAL

PROCEEDINGS

Dated 1st September 1899

No. 3047-52
L. F. 72-98

Sanctioning the Budget Estimates of the Bangalore City Municipality for 1899-1900.

SBP—2-10-99—200

mdl-2-99-6

READ—

i. *Letter No. 347, dated 4th August 1899, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.*

In submitting the copies of communications received from the Superintending Sanitary Engineer with the Government of Mysore, I have the honor to inform that in anticipation of sanction of Government I have directed Senior Hospital Assistant C. David Pille to report himself to the Superintending Engineer for opening the dispensary at the Malleswaram extension.

	Rate per mensem. Rs.	Per annum. Rs.
Contingencies, such as country medicines, &c.	... 10	... 120
Servants—		
1 Compounder ...	... 8	... 96
1 Surgery cooly ...	... 6	... 72
1 Waterman's allowance	... 2	... 24
Furniture as per sanctioned scale	...	... 192

The pay of the Hospital Assistant and the cost of Europe medicines and appliances will, as usual, be met from the Medical budget, but as regards other charges, that is, the pay of servants, cost of country medicines, &c. (particulars as per margin), I solicit the orders of Government.

It seems to me that as both the D. P. W. and the people living in the neighbourhood of the extension will be benefited by the establishment of this dispensary, the cost specified should be borne by the D. P. W. and the Municipal and the District Funds in equal proportion.

(ENCLOSURE TO ABOVE).

i. *Docket No. 1806-594, dated 1st [3rd] May 1899, from the Superintending Engineer, Sanitary Works, to the Senior Surgeon, Mysore Government.*

Has the honor to inform that some 30 families and a number of imported work people have been living in the Malleswaram extension, which is above two miles from the Civil Hospital.

2. Requests, therefore, that a dispensary may be kindly ordered to be located in the extension for the benefit of the families and workmen.

3. Corrugated iron sheds will be provided for the dispensary. Sub-Assistant Surgeon Mr. Ramasawmi Pille, Assistant Health Officer, has been living in the extension and may give help if ordered. The dispensary will also be available for the villages of Jaksandra and Guthalli.

ii. *Letter No. 3165—1155, dated the 19th [21st] July 1899, from the Superintending Sanitary Engineer with the Government of Mysore, to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.*

Referring to my No. 1806-594, dated 4th May 1899, requesting the establishment of a dispensary at the Malleswaram extension, and your personal inspection of the locality on the 13th June 1899, when you personally selected a building for it, I have the honor to request the favor of your ordering the dispensary to be established as early as possible, as the people living in the extension have been experiencing very great difficulty for want of medical help near at hand during the present unhealthy weather.

2 If permanent arrangement is likely to be delayed, I would suggest that either Stephen Basappa, an Hospital Assistant, doing duty at the Yesvantpur Railway Station, who daily passes through the extension on his way to the above station, or Sub-Assistant Surgeon Mr. Ramasawmi Pille, who is living in the extension, may be kindly ordered to give medical aid to the inhabitants of the place, as a temporary arrangement.

---

(2) Letter No. 4412, dated 24th August 1899, from the Chief Engineer of Mysore stating, in reply to an enquiry from this office, that he sees no reason why any portion of the charges of the proposed dispensary should be borne by the Public Works Department.

(3) Letter No. 172, dated 29th August 1899, from the President of the Municipal and District Fund Boards, Bangalore district, stating in reply to this office No. 2227—Mis. 701, dated 19th August 1899, that the Malleswaram extension being outside the Bangalore Municipal limits, the City Municipality cannot be required to contribute towards the upkeep of the proposed dispensary, and that the District Funds are not in a condition to bear any portion of the charge.

No. 3810-13—Mis. 1004, dated Bangalore 20th September 1899.

Order thereon.—The Government are pleased to sanction the opening of a dispensary at the Malleswaram extension, as recommended by the Senior Surgeon, the entire cost being, as a special case, debited to the Medical budget.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Deputy Commissioner, Bangalore District.
The Chief Engineer of Mysore.

Dated. 25-10-99

No. 1175

Sir,

With reference to your docket No. 4716/Mis. 1391 dated 18th Instant I have the honor to report that the Dis-pensary at Malleswaram was opened on the 28th July 1899 b Senior Hospital Assistant C. David Pillay and this fact will be communicated to the Comptroller direct as instruc in the docket under reference, but as the Dispensary was opened in anticipation of sanction conveyed in the Govern-ment Proceedings No. 3810-13/Mis.1004 dated 20th September 1899 and the marginally noted servants were employed on the dates noted against their names the Comptroller may be authorized to disburse their pay with effect from the dates specified.

1. Compounder 6th August 1899.
1. Surgery Cooly 28th July 1899.
1. Waterman ----------do----------.

I have the honor to be,

Sir,

Urgent

Judl. 2-95-18

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,

GENERAL AND REVENUE DEPARTMENTS,

BANGALORE.

Dated. 28.7.00

No. 437.

Sir,

I have the honor to report for the information of Government that on hearing from Mr. Standish Lee that ague was said to be very prevalent, indeed Epidemic, in the New Malleswaram Extension of Bangalore City, I made a careful personal inspection of the locality on the 25th Instant and today.

2. The locality seems admirably suited for the purposes of the Extension and it would be a great pity if through want of obvious sanitary precautions Malaria should be allowed to prevail and thus render futile the efforts of Government to give wider living room to the inhabitants of the overcrowded old City.

3. That Malaria exists is only too evident. I examined many children on the spot, both those born and bred, and others recently gone to reside in the Extension,

and

(15)

and found about half of them suffering from spleen or other evidence of Malaria.

4. So I made a careful examination of the place. Like all areas in the tropics recently extensively opened up, it has probably become more malarious than it was before. Not that digging up the soilhas had p e r s e an influence in that direction, but the alterations of surface contour which inevitably result from digging -- operations produce pits, large and small in which rain and other water stagnate and where consequently malaria -carrying mosquitoes readily propagate their species. In the case of Malleswaram this is very markedly seen. New roads have been hastily laid out crossing numerous natural water courses with the result that a large number of small pools and ponds have been created which afford the musquito all she wants as a breeding ground. Pits in the course of the natural water courses have been delibrately damned up in order that in the course of years they may fill by a natural process of silting and thus save the cost of filling them by hired labour. Another source of pool formation is the stand-pipe one finds here and there, sometimes through the people who use the pipe allowing water to run on to the ground, but more often I fear from an accidental leakage of joint in the laid pipe. It is

almost

almost impossible for pools (of any size at any rate) to form round a stand-pipe where the excellent and waste preventing taps such as I saw in the Extension are in general use.

5. But while these "accidental" pools, as one may call them, have undoubtedly increased the breeding facilities of the musquito, and thus perhaps intensified the prevalence of Malaria, it must not be thought that they are the sole cause of their prevalence. On examining the boundary of the "Extension" at a place near the old Kadu Malleswaram temple many pools were seen, besides old wells which, would form ideal breeding grounds for musquitoes. Indeed the most perfect culture we discovered was in one of these pools where Anopheles larvae (the Malaria carrying musquito) was found in countless multitudes. It is almost certain that the "acidental" pools have been "infected" by musquitoes from these old breeding grounds. For they are obviously old, and have left their mark on the villagers in the neighbourhood.

Today's inspection was delibrately undertaken to hunt up musquito pools, and I was very kindly assisted in my search by Dr. Sreenivasa Rao, our Government Bacteriologist- who had already on his own account gone over the ground. From what I saw on the previous day,

I thought we should have had a good "find" in the "accident
-al" pools, but mean time many of these had been drained
or converted from stagnant pools into passages for running
water; however evidence of late musquito larvae occupation
was universal, in the shape of old sheaths from which mus-
quitoes had only recently made their escape.

6. In connection with the damming up of old
water courses in the course of making new roads &c one
must express one's sympathy with the Engineers in their
desire to turn such damming to account by allowing the
water in them to stagnate and thus help to silt the small
gorges that abound in a very slow but cheap manner. I be-
lieve it will take five or six years for some of the tanks,
as we may call them, which are now being made near the
railway, to silt up.

The absolutely correct course to take in
connection with these operations, is to construct a culvert
at the very bottom of the dam so as to ensure the continued
dryness of the pits above them. But it has appeared to
me that a little risk may be run in the case of the pits
near the Railway as they will form quite large collections
of water not so liable to form breeding grounds for mus-
quitoes as much smaller pools would be, provided some

arrangement

arrangement is made whereby they could be readily drained dry should anopheles subsequently be found in them. With this object an iron pipe might be laid along the bottom of the ravine beneath the dam plugged at the higher end so that at any future date the plug could be knocked out and the tank kept thereafter dry. (This system of piping all the natural water courses wherever they are crossed by roads should be every where adopted pending the building of permanent culverts). If some such system is not adopted the only alternative a sanitarian can offer is that ~~the~~ deep laid culverts be at once built so as to absolutely ~~ever~~ prevent water from lying above the dams.

7. As regards the temple wells I am told that as they lie outside the walls of the temple and are never used, they can readily be filled in, and this ought to be done at the earliest possible date.

8. The pools in the neighbourhood should be drained; and this, I am assured by the Engineer, presents no difficulty.

9. Trees should be planted on every available spot at the earliest opportunity; they will dry the -- ground and afford shelter to the houses to be built : no unimportant consideration on such an exposed site; for

it

(77)

it is easy to understand how one might catch a chill in houses on that breezy height, and this would predispose to ready infection by the Malarial mosquito

10. A certified Sanitary Inspector should be engaged to work under the Health Officer. Till the extensions are more thickly inhabited, one Inspector for would suffice both of the New Extensions but he should have cooly labour-er under his orders for each extension who would go round with him and put small matters to ~~write~~ right at once under his own eye. This Inspector is very necessary, for it is clear that, abounding as the New sites do with pits and ditches of sorts they will soon become one vast latrine unless they are very carefully safeguarded from pollution by the inhabitants. He should have Police powers to arrest all offenders in these matters. I do not for a moment suppose that such powers will ever be given to the Sanitary authority - here or anywhere else - <u>yet it ought to be given.</u>

I have the honor to be,

Sir,

Your most obedient servant,

S. V. Ramaswamy Aiyangar

Health Officer, Bangalore
City

(87) (5/a)

Letter No. 67 P dated 4th August 1900, from the Sinior Surgeon and Sanitary Commissioner with the Government of Mysore, to the Plague Commissioner in Mysore.

With reference to your Memo No. 7901 dated the 18th May 1900 (herewith returned), I have the honor to state that Col Benson called for a report from the then Health Officer, herewith forwarded for information and favor of return when done with. I agree with his report generally, except that I do not place so much importance on the new pits that have been made as he does. I look upon the old breeding grounds for mosquitoes which abound near the temple as by far the most dangerous and requiring immediate attention.

2. Before I was aware of the existence of the above correspondence I visited the Extension in question and made a careful examination of the site; and my report dated 28th ultimo (No 437) is now before Government.

Memo No. 580 dated 22nd August 1900, from the Plague Commissioner in Mysore.

Forwarded to the Secretary to the Government of Mysore Revenue and General Departments, for favor of disposal, (with docket No. 1174/469 dated 11th May 1900, from the Superintending Engineer, Sanitary Works).

"Copy."

Under Secretary.

K.R.

(89) (5/6)

Docket No. 1174/469 dated 11th May 1900, from the Superintendáng Engineer, Sanitary Works, to the Plague Commissioner in Mysore.

Referring to the enclosed report from Mr. E. Krishnaswami Iyer, dated 1st May 1900, forwarded to the Sanitary Engineer for opinion on the statement therein made, that the new cut tings for the formation of roads in the Malleswaram Extension of Bangalore have caused the locality to become Malarious, has the honor to state that this is a new theory and unless endorsed by superior medical authority cannot be accepted.

II. It might however be mentioned that Malarious fever was reported to be prevalent at the north end of the Extension where there is no excavation, nor is there any exeavation at Jacksandra, where malaria is now said to exist, also, the excavations for roads are far more extensive at Basavangudi, yet no s such imputation of unhealthiness has been made in reference to that locality. If, therefore, there is an epidemic of malarious disease in the locality the cause must be traced to other conditions.

Memo No. 7901 dated 15th May 1900, from the Plague Commissioner in Mysore.

Forwarded to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, for favor of opinion after personal inspection of the locality.

"Copy".

Under Secretary.

GOVERNMENT OF MYSORE

5/e

MALARIA in MALLESWARAM.

It is a known fact that malaria is epidemic in the whole of Mysore Plateau. It has been known to have prevailed in an Epidemic form during bad seasons even in maidan Tracts. But the present Epidemic in Malleswaram has been of an unusual severity. It began about July or August 1899 and has not yet shown any signs of abatement- nearly all the people have had attacks of malaria and most of them are still subject to frequent relapses notwithstanding treatment with quinine. All the children in the locality have enlarged spleen.

From enquiries made in the villages of Juksandra and Runganathpur which border Malleswaram to the east and North I learn that malaria in an epidemic form was unknown in these villages.

Pindarchery, asmall settlement to the South East of Malles-waram, was also healthy till the present outbreak in Malleswaram. Malaria is reported to have existed among the Mill hands and the servants employed in the City Water Works Reservoirs and Filter beds, sometime previous to its appearance in the new extension With the exception of the Mill and Filter beds all the surrounding villages and settlements are reported to have remained free from malaria up to July 1899.

In Malleswaram itself the first settlers about 40 families enjoyed good health for about 6 months while living in tem orary accommodation from January to July 1899. Malleswaran Extension is laid out on an open high ground which slopes rather abruptly to the east. There are broken grounds in the northern and Southern portions of the extension. In the former a small - stream was flowing constantly as a result of percolation from the Filter Beds. In the latter rain water was collecting for during the rainy seasons.

By July 1899 ten roads running North and South and 17 running east and west had been formed with in some cases cuttings as deep as 8 or 9 feet. One result of the formation of these roads was the creation of a number of pools and puddles in the broken grounds to the north and south. No tunnels had been made to lead off the water collecting in the pools.

90 houses had been built by July 1899 and 80 families were residing in the extension.

The houses are all built with due regard to ventilation and house conservancy. The residents were chiefly families of Brahmin officials most of whom had been till then residing in temporary sheds in the Health Camps and some in the City.

The only conditions to which the present epidemic would be traced are

1. The broken grounds to the north of the mills where water collected occasionaly.

2. The stream of percolation water from the Filter beds.

3. The formation of a number of pools by the new roads embankment.

4. The disturbance of the surface soil by the cuttings for roads.

5. The burning of a number of brick kilns in the valley to the east of the extensions.

Of the above No. 2 and 3 appear to me to have been the main cause in the prolongation of the Epidemic.

Anopheles according to the experience of ~~Stetten~~ Italian Professors are known to breed only in sequestered places in clean slow running or stagnant waters

"The true essential condition says Professos A. Celli is that ground water appears on the surface of the soil even though its area is small and then remains stagnant or runs very slowly. new investigations confirm the fact that neither extensive marshes with their effluvia nor the putrefaction of the waters are conditions

indispensible for the production of Malaria".

Owing to want of knowledge I am sorry I was not able to find out any Anopheles in the water around Malleswaram.

Of the measures of profly laxis recommended by ~~station~~ Italian professor the fol owing may be adapted to the local conditions.

1. The removal of all stagnant water.

2. The disenfection of all suspected water by petroleum or by powdered unexpended flower buds of Dalmatian Chrysanthemuns (Pyrethrum Cinerane folium).

3. The exclusion of mosquitoes from dwellings by the fumes of ignited chrysanthemum flower buds Benzoin or other batties mosquito net fir beds and windows not keeping a light in bed rooms.

4. Culicifugal perfumes for the person atleast for such portions of the body as are uncovered- menthol and sandal perfumes.

5. Daily administration of quinine to all living in the locality for atleast one year.

In this connection I would strongly recommend the free distribution of Quinine.

Sir,

With reference to your Memo No. 2913 in 588 of the 23rd August 1900 re the sanitation of the Malleswara and Basavangudi Extensions I beg to state that they are both outside the Bangalore City Municipal limits Separate Establishments for the Conservancy and lighting of these two Extensions have been sanctioned by Government and they are placed under the orders of the Deputy Commissioner in the Revenue

(93)

Department and are paid by him. The Municipal Sanitary Inspector and the Municipal Executive Engineer simply look after the working of this temporary establishment as directed by the late President. But that establishment is insufficient to meet the wants of the Extensions. If it is increased as noted in the margin the present Sanitary Inspector and his Assistant can very well manage the work connected with these Extensions

Sanitary Improvements in the Malles waram Extension of the Bangalore City, was separately forwarded on the 15th April 1901 as an enclosure to this office No. 222/2072 of 12 idem and its receipt has been acknowledged in the Delivery Book of this office Another copy of the report is however now forwarded

Assistant Secretary
Office of the Chief Engineer

Bangalore
27 May 1901

AM

GOVERNMENT OF MYSORE

Report to accompany the Estimates of works of Sanitary Improvements required for preventing Malaria in the Malleswaram Extension of Bangalore City.

References:-

Chief Engineer's No. 3793 of 27th August 1900, forwarding Senior Surgeon's letter No. 437 of 28th July 1900, proposing certain measures to prevent Malaria in the Malleswara extension.

Report.-

Immediately on receipt of the above reference, certain of the preventive measures recommended by the Senior Surgeon — which appeared urgent were carried out in anticipation of Sanction and for the past 4 months the Extension is reported to be free from Malarial fever

2. The following works have been carried out in anticipation of Sanction

(1) Draining the main Stream above 2nd main road at a cost of Rs 100/-

P.T.O.

(106)

(ii) Clearing the old wells and the temple surroundings at a cost of Rs. 199/-

3. Works proposed to be carried out further are.

(i) Enclosing and planting cuttings all round the Park ground at an Estimated cost of Rs (320+490): Rs 810/-

(ii) Planting Encalyptus on the margins of the main Stream at an Estimated cost of Rs 1,213/-

(iii) Filling in pits so as to prevent the formation of the pools between 2nd + 3rd main roads at an Estimated cost of Rs (2000+407) or Rs 2,407/-

(iv) Laying in cement pipes to drain off water from Nullas between 2nd + 4th main roads at a cost of Rs 810/-

4. Work No iii, Viz. filling in pits is considered much cheaper now and in the long run than constructing low level tunnels and allowing the pits to remain as they are. Only the pits in the parts

inhabited

inhabited are now proposed to be dealt with. Proposals for filling up other pits will be submitted as necessity for the same arises.

Dated 7th June 1901.

Sir,

I have the honor to lay before Government certain bills for rent of the Mullaswaram Dispensary which the Municipality of Bangalore city decline to pay on the plea that ~~the~~ Malleswaram is not within Municipal limits. However it seems clear from recent Government Proceedings that Malleswaram comes under Division No.1 of the Municipality.

I request Government will be pleased to pass final orders on this point as early as may be convenient, as it does not seem right or proper that the owner of the property should be deprived of the rent of the buildings for such a long period of time

2360

Dated 14th October 1901

Sir,

I have the honor to report that the new extension of Malleswaram is about as bad this year as it was last year in regard to the prevalence of Malaria.

2. I have gone at random into many of the residences, and found no house in which there was not one enlarged spleen, while in most houses many large spleens and much fever prevail.

3. I went over the ground I traversed and reported on last year, viz. the valley through which the leakage from Sankeys Tolly percolates and found that practically nothing been done to confine the water to a single channel. It is allowed to run all over the place making pools and swamps in which Anopheles love to dwell.

4. If Government tried to create a breeding ground for Anopheles they could not form a better one than that afforded by the valley of Malleswaram.

5. The Malleswaram extension should be closed pending drainage of the valley. It is little short of cruelty to let Government property to the public for building ground, knowing well that it is a death trap from the prevalence of Malaria.

6. It should not cost much to drain the offending valley and I have the honor to suggest that a competent Officer be sent to Malleswaram to draw up plans, estimates for its drainage. I may say that I pointed out all these facts last year. A

good

good deal has since been done but the one essential thing viz. the confining of the water that run through the valley to one fixed channel has not been carried out. So long as this is left undone nothing else that may be done will be of any real avail towards rendering this unhappy area healthy.

I have the honor to be,

Sir,

Your most obedient servant

M.D.

Major I.M.S.

(16)

Letter No.2961/615 dated 28th December 1901 from Standis Lee Esquire, Superintending Engineer, Sanitary Works to the Chief Engineer of Mysore.

I have the honour to acknowledge receipt of your No. 6327 dated 21-12-1901, forwarding letter No.2360 dated 14th October 1901, from Major J.Smyth, Senior Surgeon, bringing to notice the recrudescence of malaria in the Malleswaram Extension and to report as under :-

2. In the first communication from Major Smyth dated 28th July 1900, the works recommended to be carried out were:-

(a) In para 4, the filling up of pits and the draining of the pools formed by draining of water courses in view to their gradually silting up and draining the waste water from standpipes.

(b) In para 5. Filling in the old wells and draining the pools of water near the old Kadu Malleswaram Temple.

(c) In para 9--Trees to be planted o every available spot to dry up the ground and afford shelter to the houses.

(d) In para 10--The appointment of a certified Sanitary Inspector.

3. The action on the above was immediate, as the inspection was undertaken at my invitation, (as stated by Major Smyth) and accompanied by me, so that he says in the concluding part 5th para--"From what I saw on the previous day I thought we ~~sha~~ should have had a good "find" in the accidental "Pools", but meantime, many of these had been drained and converted from stagnant pools into passages for running water"

4. To carry out the work more effectually an estimate amounting to Rs.5610/- was submitted & sanctioned by Chief Engineer in his No.221/2071 dated 12-4-1901. The expenditure on this to date is Rs.3000/- and the work is being continued.

The work accomplished as regards item (a), is that, all small pools and water courses within the limits of the extension on the east of the Tumkur road, have been disposed of with the

exception of a very large pit of water in a hollow, the shallow portions of which are being filled in as far as possible. The part to the west of the Tumkur road has, however, not been attended to since Major Smyth said in reference to these (vide para 6) "But it has appeared to me that a little risk may be run in the case of the pits near the railway as they will form quite large collections of water not so liable to form breeding grounds for mosquitoes as much smaller pools would be". Orders, however, have now been issued to drain these also.

5. In the present communication Major Smyth complains (vide Para 3) "the valley through which the leakage from Sankey's folly percolates and found that practically nothing has been done to confine the water to a single channel" and again in para 6; "a good deal has since been done, but the one essential thing viz, the confining of the waters that run through the valley to one fixed channel has not been carried out".

I beg to submit that, perhaps not having consulted his previous report, he does me the injustice to complain of work, ~~which~~ which he never suggested--not having been carried out.

I have ordered this work to be put in hand at once, and will, after my return from leave on the 11th January, in consultation with the Senior Surgeon submit an estimate for the work.

As regards item (b) they have been drained, as far as possible, pending the settlement of compensation by the Deputy Commissioner for converting all the wet cultivation near the Temple into dry, thereby effectually converting all swampy ground into dry land.

Item . Trees have been and are being planted. Greater progress has been ordered.

Item (d). This rests with the Municipality, but I fear no action has been taken owing to the Extensions not having been handed over to them.

Commissioner with the Government
of Mysore
Bangalore

Sir,

With reference to your
office no. 2652 dated the 23rd
March 1903 requesting to be
informed whether it is necessary
to have water-tap laid ~~from~~ to
the Malleswaram dispensary,
I have the honor to reply in
the affirmative. This statement
was omitted to be made in
the previous letter as the dispen-
-sary is not under the super-
-vision of the Health officers.

I have the honor to be
Sir
your most Obedient Servant

Sir,

I have the honor to submit herewith for disposal the accompanying file of correspondence ending with the Hallesvaram Registrar's No 83 dated 13th Instant re the question of water-supply to the Dispensary and Hospital Assistant's quarters there. The owner of the house where the dispensary is located is unwilling to have water-tap laid on to the premises unless the rent is raised.

Ask H.O. further report as to whether the necessary work has been done or not

Registrar's Report &c

Bangalore,
Petta, 6th March
1903

My dear Sir

I beg to acknowledge the receipt of your letter of the 2d instant requesting me to remove water tap pipe up in the yard of my house in Mallesvaram, now rented for the Dispensary.—

In reply, I regret to inform you that I have already been subjected to suffering by renting the house for the small sum of Rs 10/ per mensem, and I find it extremely difficult to lay out further sums on it at present, for the small return it brings.— I have laid out the large sum of Rs 3500/ on it for which I have been paying a heavy interest for which the house rent I have now been getting forms but a small proportion.—

(134)

I may add for your information that the house in question was chosen for its central position and convenience by the then Civil Surgeon and Chief Plague Officer Doctor Choksi in 1899, at a time when the extension was not largely resorted to, and people were somewhat reluctant to get into it, owing to the unsanitary conditions which then prevailed.

Now under improved sanitation, the extension has grown more healthy and demand for houses has become great, owing to re-endescence of plague in all parts of the City, and its immunity at Malleswaram — and consequently house rent too has risen high.

In the City and other quarters where similar houses are rented for other Dispensaries proportionately larger amounts are being given as house rent.

In these circumstances I am very sorry not to be able to comply with your wishes. But if you think any grounds satisfactory, you might bring them to the favourable notice of the higher authorities, while I recommend for a suitable increase to the house rent. If this is graciously sanctioned I shall be happy to carry out the required improvement.

If I may be permitted to suggest, I may venture to say that since the hut is intended for a public purpose, viz, the requirements of a Dispensary, you might as well apply officially for it and have it put up as a temporary measure, to be removed when the Dispensary ceases to be located in it.

Yours truly,
B. V. Lakshmanarow
Proprietor.

The Health Officer
Bangalore City

Sir

In Submitting herewith Certain Correspondence as noted in the margin ending with Senior Surgeon's Order permitting me to occupy a portion of the Dispensary building in the Halleswaram extension I beg to report that I removed myself to the Dispensary building on the 9th instant. As I already represented in my previous letter D/18th November 1902, the Dispensary building is not commodious enough to admit of my residence therein in addition to the Dispensary and the Registrar's Office unless some arrangement is made to locate the Registrar's Office somewhere near the Dispensary, thus placing one more room at my disposal.

Further, there is no tap in the Dispensary building at present, the water for the Dispensary purposes being brought from the taps kept in the adjoining houses: Now that a metre is fixed to each tap kept in dwelling houses, they object to the taking of water for the Dispensary and my domestic purposes. I therefore beg to request that you may be pleased to write to the owner

2 Letter D/ 842 D/10 " Assistant to from the H. O. to the Senior Surgeon
Letter D/ 574 D/18 " — " — from the Surgeon to the Dy I. Dn to the H. O.
Letter D/ 955 D/25 — " — from the H. O. to the Senior Surgeon.

Answer 16/2

owner of the house in which this Dispensary is located, to make arrangements to keep a tap in the premises of the building at an early date. The cost will not exceed Rs. 30 or 40 and the want of a tap is very keenly felt.

At present the Dispensary building is without a compound wall and this gives asylum for stray animals and all sorts of wandering beggars and thieves both in the day and night. This is also a want very keenly felt but I reserved the mooting of the question till now as I wanted to make a reference once for all on all the points connected with the improvement of the Dispensary.

I beg to remain.

Sir,

Your most obedient Servant.

S. Krishnasawmy Mooda

Sir

With reference to your No: 891 of 15th Instant, I beg to submit that to reside at Malleswaram is not at all very convenient and Congenial for more than one reason.

(1) It is very difficult to obtain accommodation as the rents are very high and owing to prevalence of Plague in the city, all the houses just now are not only occupied, the fresh demand for more houses is getting great consequently this is another reason for houses rents becoming higher.

(2) Government, have in some instances, been pleased to provide free quarters to Hospital Assistants in independent charge. I beg that a similar concession may be kindly shown in my case also for the reasons mentioned above. For the time being if permitted, I shall occupy a portion of the Dispensary building. In such case, arrangements will have to be made for the location of another place or house, of the Office of Births and Deaths; at the same time I submit that the Dispensary itself is not a spacious building. It would hardly permit me to occupy it with any convenience

(3) With my small pay and Dispensary allowance I very respectfully beg to submit that I owned in a very short space of time, run into debt and become involved in pecuniary matters.

(4) After my removal to Malleswaram. If I owned be transferred elsewhere which will put me to a great deal of expenses and personal inconveniences in moving from place to place.

I beg to remain,
Sir
Your Most Obedient Servant

Sir,

I have the honor to forward the accompanying letter No.31 dated 28-10-1903 received from the Hospital Assistant of the Malleswaram Dispensary and to recommend that the pay of the Waterwoman referred to be increased from Rs.2 to 4/- per mensem equal to the pay of the waterwomen of Arlepet and Taluk Cutcherry dispensaries in Bangalore City as it will be very hard for her to work on Rs.2/- when her colleagues get Rs.4/-.

2. The amount may be met from the contingencies of the dispensary during the current year and necessary provision will be made in the ensuing years budget.
